Multifunctional.

Worked one on one with Creative directors to develop design strategies and techniques for the design project.

Communication

Worked with people who have a hard time speaking English properly.

I Gave many client presentations.

Built marketing plans to sell the products.

Creative Work

Posters & Brochures	➔	Created many different design posters as well as brochures like pamphlets, promotional posters, Tri-fold brochures, Gate-fold brochures, for projects and clients.
Brand Materials & Logos	➔	Created brand materials like logos, business cards, banners, basic different rough sketch and design ideas for the client and restaurant menus.
Flyers & Infographics	➔	Created Flyers like Photo-centric flyers, corporate flyers, informative flyers and brand promotion. Also infographics like comparison, statistical and process.
Marketing Campaigns & Presentations	➔	<p>Created marketing campaigns for some companies like "Partial art gallery", "Glenbow museum", "YYC farmer's market", "Chapters Indigo".</p> <p>I worked with the team and created marketing plans by outlined campaign goals, assigned specific tasks, discussed where and how to execute a marketing campaign, created digital and print both versions to reach more audience. After gathering all the ideas and necessary content, created presentations and pitched it to clients.</p>
Android Application Design	➔	I created design layouts for applications as well. By using adobe xd, I did some mobile and tablet application design, I have done some website designing too.
3d Objects & Character Sculpting	➔	Apart from the web and graphic design, I also created some 3d modelling, character sculpting and texturing by using Autodesk 3ds Max and Mudbox software.
Youtube Videos & Podcats Series	➔	I also did some multimedia designing by using adobe Premier pro, Premier rush and Audacity.
